ART UNIT	PAPER NUMBER
----------	--------------

3727

DATE MAILED: 04/13/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 3727

1. Applicant faxed a proposed set of drawings for consideration. Applicant indicates that the originally filed photo copies of photographs contained shadows which resulted from camera flash. Due to the poor quality of the original photocopies, one cannot reasonably determine the structure of the invention from the alleged shadows.

Accordingly, the new drawings appear to be replete with new matter. The structure illustrated in the new drawings is well defined. This well defined structure is not supported in the original figures.

2. Since applicant has had several interviews during prosecution, all further communications should be filed in writing for formal consideration.
